

## Shamley Green Nursery

Castle Nursery in Shamley Green opened in 2002; we are a 39 place rural day nursery situated in the grounds of Wonersh & Shamley Green Primary School.

We have a single storey building with disabled access and two fully equipped rooms, one for the under two's and one for the over twos.

We have direct access into the outdoors areas from both rooms with the over two's having free flow indoors and outdoors access to a digging area, willow den, growing area, mud kitchen, sand and water play. There is also a large sand pit, role play house, trim trail and a variety of gross motor equipment on a safety surface area.

We are fortunate to have a woodland environment nearby which encourages a variety of wildlife into the area and a Forest School, where the children can explore and experiment following their curiosity and ideas in a natural environment.
